About Web Development

Web development itself and how it is done has changed greatly over the years. Web development is all about creating applications which run in a web browser.Some of those applications have most of their logic living on a web server which renders HTML, CSS and JavaScript to create an application.

Scope of Web Development

Web development powers state of the art programs including set-top boxes, printers, webcams, car navigation systems, parking payment stations, etc,. In addition, it provides API's to create rich and interactive web apps for various businesses, such as E-commerce sites, portals, financial sites, ERP, CRM, etc. The scope for web developers is increasing day by day since web development is the base for all applications.

Project Based Learning

The program will enable a learner to implement the preceding objectives through a project-based learning methodology. The students are expected to spend at least 70% of their time on project work during the program. 2 Projects that would be used during the upcoming batch are:

E-Commerce Site

Today, E-commerce across the world (including India), is growing at a rapid pace. As more and more businesses are moving towards adapting E-commerce, software development organisations are looking for professionals who can develop such diverse applications.

» Attractive and responsive web pages
» Web pages with products, price, features, comparisons, similar products, etc.
» Lightweight/fast download web-pages
» Security - Basic encryption, AES encryption

CMS Development (Wordpress)

Wordpress has become much popular among bloggers since its release. Other than blogging, its plugin architecture and template system allowing users to change themes and extend the functionality of a website. For those who know WordPress only as a free and open source platform, we would like to teach you more features of it and how to make the fullest use if it.

» Communication - Voice mail, Instant messaging, Video Call
» Group Calendar
» News Groups
» Blogs
» Chat rooms, etc
